I ran into several issues here. I deleted all entries and copy pasted only the ones from the lecture and it came out very odd. I am unsure actually where I went wrong. Maybe it was in entering the information or in the copy/paste section. Hopefully, the next entry is not as confusing.

This entry was easier to locate the necessary information; however, it still did not look like the print-out for the example. Perhaps, after receiving feedback I can make the necessary changes in the next set of MARC records.

This was by far the best entry. It still isn't perfect but it is better.
